EnAlgae Final Conference

Algae based industry - A future leading sector in a European Biobased economy

29th - 30th September 2015, Brussels, Belgium

The EnAlgae Final Conference promises to be a leading event for the algae sector. We invite you to join us for a two days event focused on the attractive world of algae and the impact of algae biomass on biobased industry sector. Top level speakers, policy makers, industries, universities and international organization will be discussing and cooperating for a

Sustainable European Algae-Based Economy!

EnAlgae Project at a Glance

EnAlgae is an international project financed by the Programme Interreg NWE IVB. The project brings together 19 partners and 14 observers across seven EU Member States. Since 2011, the project has been developing sustainable technologies for algal biomass production, bioenergy and greenhouse gas (GHG) mitigation, taking them from pilot facilities through to market-place products and services. This is the last year for the EnAlgae project, and we will be unveiling two of our lasting legacies which will go on to inform and interconnect people interested in algae and the algae industry for decades to come. We hope you can join us to discover more about how the EnAlgae project has worked towards finding sustainable pathways for algal bioenergy and how the successful results obtained will enable that work to flourish and continue in the weeks, months and years ahead..

CONFERENCE PROGRAMME

DAY 1

A WELCOME	
09.30	Welcome by EnAlgae coordinator - event presentation
09.45	INTERREG IVB - Programme
B POLICY REPRESENTATIVES INTRODUCTION	
10.00	Algae for energy: EU approach and future perspectives
10.20	EC DG Mare/DG Environment
10.40	A vision on algae sector in Flanders
<i>11.00 - 11.15: Coffee Break</i>	
C RESEARCH ACTIVITIES ON MICRO & MACRO ALGAE	
11.15	Microalgae pilot plants in NWE
11.35	Atlantic Ocean Seaweed cultivation
11.55	EnAlgae Decision Support Tool - an ICT tool to guide algae decision making
12.15	At the break of commercialisation - InteSusAl project
12.35	LCA of greenhouse gas emission of algal biofuels in Europe
<i>13.00 - 14.00: Lunch</i>	
D ALGAE PRESENT AND FUTURE MARKET POTENTIAL	
14.00	Overview on EU algae market potential
14.20	Sustainable microalgae for energy market
14.40	Potential application and market development of Seaweed in Europe
15.00	Presentation of The EnAlgae Roadmap
15.20	The Algae Information Network
<i>15.40 - 16.00: Coffee Break</i>	
E ALGAE SUCCES STORIES - THE BIOREFINERY CONCEPT	
16.00	Production of high value products, bulk chemicals and biofuels
16.15	Biorefinery approach using starch-rich algae biomass
16.30	Comparison of different production systems (PBRs) for growing micro algae used for bio-kerosine
16.45	Sustainable algae Fuel production in competitive algae-biorefineries
17.00	Closing Session and Open Debate
17.30	End of EnAlgae Conference 1st Day

DAY 2

INTRODUCTION	
	09.30 EnAlgae coordinator presentation
	09.40 EnAlgae results on policy assessment in NWE
	09.55 Micro and macro algae role for EU 2030 targets
POLICY DEBATE AND FUTURE PERSPECTIVES <i>10.15 - 11.15 EU Policy measures influencing algae sector</i>	
Panel debate with:	Secretary of State of Flanders
	Members of European Parliament
	European Commission - DG Energy
	European Commission JRC
	EUBIA Scientific Committee
	EABA Secretary General
<i>11.15 - 11.30 Coffee Break</i>	
MARKET FORCES DEBATE <i>11.30 - 12.30 Improving The Sector Competitiveness</i>	
Panel debate With:	Roquette algae production plant
	AlgEn - Small enterprise for Algae Research
	Energy Research Institute (ERI)
	University of Florence
	ENI - R&D
	NesteOil
<i>12.30 Lunch Buffet</i>
